Pickle Dish 4 Block Quilt Supply List
Workshop with Debby Kratovil

Block Size: 12" x 12"
Quilt Center: 24" x 24"

Yardages are based on my multi-colored "scrap" version using Kaffe Fassett fabrics

BACKGROUND FABRICS: **TWO 11-1/4" x wof strips** (can be the same for a unified color (2nd sample below) or two different fabrics as in my sample on the left). One 11-1/4" strip will yield four of the background units. We need 8 background units. **We are not using squares. This makes better use of our fabric.** Use the next page to plan your fabric placement.

****For the FOUNDATION PIECED ARCS, there are two different patches: the "teeth" and the background for the "teeth". My background is yellow print in all of the pieced arcs. I call these "teeth" because they are a traditional Dog Tooth quilt unit.

TEETH FABRICS (I used two different fabrics): Twenty-four (24) 3-1/4" squares EACH of 2 colors. If you are using a single color for all four blocks, you will need 48 squares 3-1/4" x 3-1/4". You can get 12 squares from each 3-1/4" x WOF strip. You will need TWO 3-1/4" strips for EACH of the two colors.

- Background for the "teeth": 14 rectangles 3" x 3-1/2" for EACH arc for a total of 56 rectangles. In my example, I used the light yellow print throughout for a total of FIVE (5) strips 3-1/2" x WOF. This will give me the 56 rectangles.

- 4 CENTER MELONS: Four (4) rectangles 6" x 13" (can be the same or different)

CORNER SQUARES: Four squares EACH of 2 colors: 3-1/2" x 3-1/2". These squares will finish to 2", but we need them cut oversized for ease of construction. We will be trimming the outside straight edges to leave 1/4" seam (see my first sample on the left).

You will also need:

- Freezer paper (cut one 11-1/4" square)
- Add a Quarter ruler (for paper piecing)
- All rotary cutting supplies (cutter, rulers, 12-1/2" square)
- Sewing machine, thread, mat, etc

Please note: This pattern is a variation of an American Patchwork and Quilting design that appeared in a past issue. I have permission to teach this 4 block variation. I have streamlined the piecing, tweaked the templates and simplified the pattern. The cost of the pattern is just to recoup the cost of paper, printing and packaging.

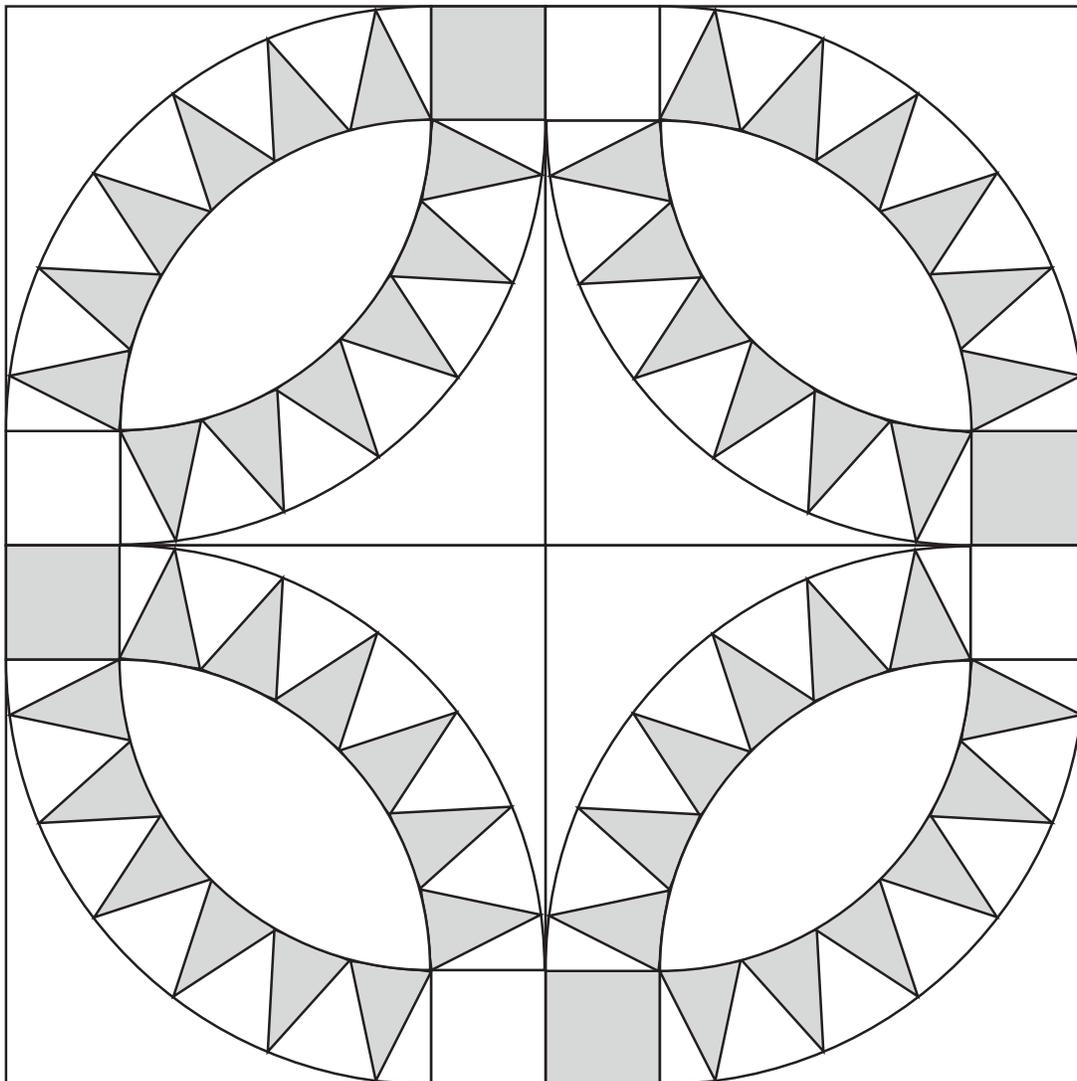

Four Blocks without borders

Four Blocks with borders

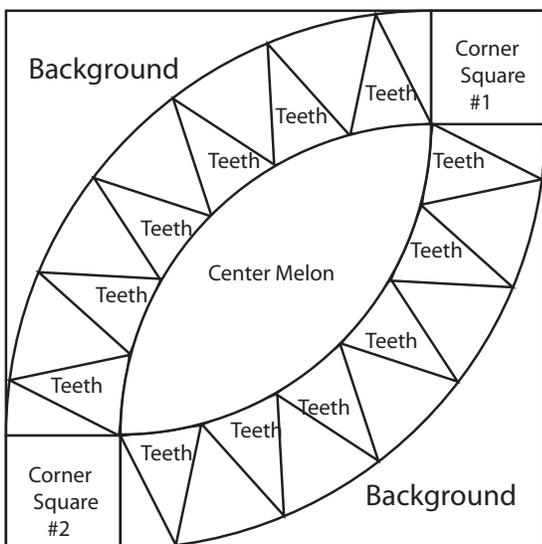

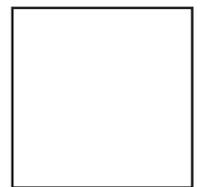

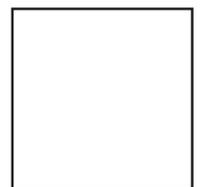

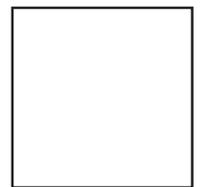

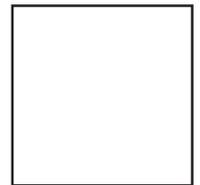

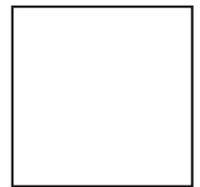

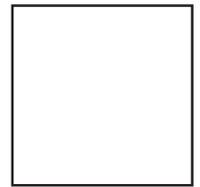

The borders on this quilt are:
1" finished yellow inner
4" finished blue outer

Planning Chart

Fabrics

Use this page to plan your colors and fabric choices. Feel free to duplicate this page and color in or even glue tiny swatches to the patch spots.

This is a paper piecing class, so all patches for the pieced arcs are cut larger than needed.

The BACKGROUND and CENTER MELONS are cut using templates (provided). The corner squares are cut larger and then trimmed down after the BACKGROUND pieces are added.

Fabric supplies are given on the first page.

It is VITAL that you bring an Add a Quarter ruler and freezer paper for templates.
