Scissors, thread snips, straight pins
Rotary cutter and mat
1/4 yard Wonder Under Fusible Web
Ironing surface

Fabric

Background Blocks. All the class sample quilts start with a quilted background block so only cut those blocks before class. Color your background in any way you wish!

Cut 25 5 inch squares. (Bring some extra squares, or fabric, just in case. Arrange the squares in your color way, 5 rows of 5 blocks. Hint-- take a phone photo so you can remember your design to lay out.

Do not cut the small center squares, inset strips, or corner triangles. We will do this in class when you make your design choices. Bring coordinated fabric for these pieces.

Backing 3/4 yard **Binding** or Knife edge finish 1/4 yard

Threads

Quilting thread

Anything goes on **top**! We are straight stitching, not free motion. You want your thread to show! Choose lots of threads for variety and contrast or just a few for subtlety. Glitzy, shiny, shimmery, variegated, cotton, thick, thin-- if you can get it through the needle and sew a straight stitch, it works. In the **bobbin** Invisible or any neutral thread that doesn't show through on top.

Center Square Appliqué thread

Top thread Any thin thread to match appliqué square color. About 60 wt. I like Superior Bottom Line or similar. In the **bobbin**, invisible thread.

Piecing thread Regular piecing thread top and bobbin.
