

Sparkle Supply List

Michelle Renee Hiatt - Instructor

Welcome to the Sparkle workshop. Michelle designed this quilt combining two of her favorite quilt blocks, the Rambler and V Star (also known as the Peaky and Spike/50-40 or Fight Block). This quilt literally sparkles! If you collect or love Fat Quarters, this is the quilt to make, it makes fabulous usage of Fat Quarters and it is perfect for any color background. For the most sparkle, go with a high contrast between your background fabric and Fat Quarters. Michelle used a green accent fabric throughout her chain, you could elect any color but try to use your accent color minimally within the Fat Quarters, so that it pops!

Required Pattern, Tools and Notions are available for purchase at the workshop at a Student Discount.

If you have any questions, please feel free to contact me at michelle.hiatt@sewonthego.net.

Project Fabric & Pre-Class cutting Requirements

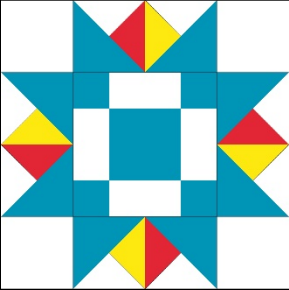

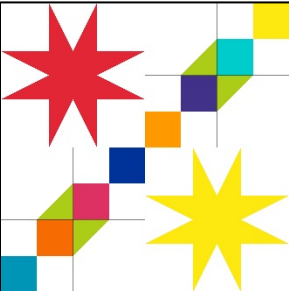

Pre-Class Cutting Note:

Pre-cutting is required and will allow us maximum sewing and learning time in class.

- **For the workshop, you may elect to just a few fat quarters and all your background and accent fabric. However, make sure you cut from Bright Fat Quarters you see coming together in a Sparkle Rambler Block.**
- I personally like to cut my entire quilt at once, to stay organized, but you may only want to cut for the workshop.
- If you only cut for the workshop, **remember to bring the rest of your fabric in case of errors.**

- The cutting instructions for the Pieced and Outer Border, for the background fabric, can be found on the pattern. You do not need to have them pre-cut for class.

Cutting Instructions:

- WOF= Width of Fabric, cut from selvage to selvage, typically 40-42" in length.

- From each Bright Fat Quarter, you will cut components to make one main feature fabric for the Rambler Star, components for two other Rambler Star (Combo A & B), components for two V Stars and 4-Patch units.
- Suggest you cut all Fat Quarters using the diagram below, then assign the cut components to the appropriate units.
