## Pieced Quilting in Layers

Select fabrics for the quilted background blocks. All the class sample quilts start with a quilted background block so only cut those blocks before class. Color your background in any way you wish!

Cut 25 5 inch squares. (Bring some extra squares, or fabric, just in case!)

Arrange the squares in your color way, 5 rows of 5 blocks. Hint-- take a phone photo so you can remember your block configuration and can lay them out the same way when you get to class.

Do not cut the small center squares, inset strips, or corner triangles We will do this in class when you make your design choices. Bring coordinated fabric for these pieces.
