

Optional Precutting

You may prepare your fabric ahead of time. Choose flowers, birds, etc. Please have them already prepared with fusible on the back and either cut them out or have them ready to be cut out when you get here. Bring a good selection to choose from. Choose simple images that inspire you with their color or shape.

You may create your own vase shape, or use the one available in the kit. If you draw your own, be sure to put fusible on the back.
