

H Bag

Supply List

This list will give you fabric requirements for making one bag of each size. Canvas, decorator fabric, linens or mid weight fabrics are best. Other lighter weight fabrics will always require fusible stabilizer & can be used with equal success. Midi and mini bag are best when stabilizer is used regardless of fabric weight.

Required (both sold in class)

Bag bottom covers..... the form core board or cardboard bottoms should be covered with fabric for a neat finish. Extra / scrap fabric can be used. Pieces can no larger than $\frac{1}{4}$ - $\frac{1}{2}$ yd.

I use the cardboard fabric bolts that fabric is wound on to make bag bottoms. I cut them to size expect for the mini bag which needs a narrower bottom. Ask your local quilt shop for a few.

Get foam core board at your local Dollar store.
