

## Delphinium:

Pattern by: Beth Wiesner

Finished size: 9-1/2 x 12 inches

Practice appliquéd circles and points with this slow stitching project suitable for all sewers, then add a pop with some fun embellishments on the flowers. Students should be able to finish the top in class and be ready for quilting at home.

**Kit fee: \$25** — includes pattern, all fabric for the top of the quilt (including the pre-stitched pieced background and fabric for the pieced binding), and all embellishments for the flowers, which include paper flowers, buttons, beads, and sea glass. **Note** — fabric in the kits will vary from those shown.

### Supplies Needed for Class:

Please bring a basic sewing kit including fabric and paper scissors. I will provide a needle and some different types of thread for you to try. If you like a specific needle or thread, please feel free to bring it. You will be able to sew all the parts using a medium gray thread.

### Supplies Needed to Complete Quilt (not needed for class):

- \* 15 x 18-inch backing fabric
- \* 15 x 18-inch square batting
