Pattern is available at many quilt stores, ETSY, or Amazon. It is also available as a PDF download on Violet Craft's website:

*****You MUST purchase a copy of this pattern to participate in this class.*****

**Note: the original version of this pattern (©2017) created a 62" x 66" quilt. If you purchase that version but prefer the update, it is available on Violet's website via email. The only change (©2020) is in the addition of background diamonds rather than trimming them. I will have layout plans for all projects (including both versions of the pattern) available in class.*

Supplies Needed: (***Note: pressing irons and mats will be provided in class*)

- *Purchased pattern
- *Sewing machine and standard sewing supplies (pins/clips, seam ripper, etc.)
- *Fabric listed above for your chosen project (amount of fabric for diamonds and starbursts depends on repeats)
- *Neutral or coordinating thread
- *Rotary cutter and 12" cutting mat (overly large mats may not fit)
- *at least one acrylic ruler 8" square or larger (3 if available)
- *Add-a-Quarter ruler (alternate: the 8" ruler above)
- *Scissors for fabric and paper
- *Sharpie or other permanent pen

Pre-Cutting for Class:

You will complete at least one, and up to three, starbursts in class. Because the background for those starbursts uses the "scraps" from cuttings of the diamonds and sashes, you will need to cut some of those, as well. **Bring all uncut fabric** with you to class, just in case!

Background: (do NOT subcut)

2 – 5.5" x WOF (*Width Of Fabric*)
4 – 2.5" x WOF

Starburst fabrics:

8 – 1" x 6" for each starburst

Diamond fabrics: (probably won't use in class)

1 – 5.5" x 10" for each diamond
(5 can be cut from 5.5" x WOF)

General thoughts about fabrics:

*I recommend that you search online for images of "Atomic Starburst Quilts" for color options (including dark backgrounds) and rainbow versions. There are LOTS of options!

*If you want to use your background for binding, buy extra yardage. If you want larger "scraps" for your paper piecing, you may want to buy extra yardage, as well.
