### Note from Alice

“I learned how to sew and embroider by hand when I was in second grade, taught by my grandmother and my great aunt. I was given my first sewing machine when I was in 5th grade and have been sewing ever since. I love all types of quilting and stitching, from Traditional Handwork to Modern Art Quilts. I love to try new techniques and ‘tweak’ old ones to make them new and fresh. I invite you to join me in my Quilting Adventures.

Let’s go to new places and learn new things. Let’s stitch our way around the world!”
